

Business Banking enables users to transfer money between accounts on your host system, including future-dated and Recurring transfers, and Loan payments and advances.

Internal transfer functionality is under **Transfer**.

“Internal Transfer” permission is needed to perform transfers.

Cross-TIN transfers

Business Banking allows for cross-TIN transfers *as long as it's supported by the FI host*. The TINs must be associated with the business profile, i.e. cross-member transfers are not supported.

OneView Transfers

If the FI links the Primary Admin's Personal TIN to the business profile, aka OneView, the FI can enable transfers between business and personal accounts.

- *Available to Primary Admins only.*
- Cross-TIN transfers must be enabled to allow OneView transfers.
- Recurring and future-dated transfers are not allowed.
- Transfers to and from personal accounts are not allowed in Business Banking.
- *Transfers from personal deposit account to business loan or business deposit account to personal loan work only if supported by the FI host.

Request a Loan Advance / Make a Loan Payment:

- Even if the business doesn't have a loan, these options show to Primary and Secondary Admins. Business users must have the necessary entitlements.
- *Deposit to loan transfers work only if supported by the FI host.

**User can initiate the transfer but sees an error after clicking submit, if FI host does not support.*

Make a Transfer:

1. Select the **From Tax ID and From Account**.
 - The Tax ID fields display only when the business has more than one TIN.
2. Select the **To Tax ID (if supported) and To Account**.
3. **Date** defaults to current day, can select a day up one year out.
 - Current day transfers cannot be cancelled or edited once confirmed.
 - OneView supports current day transfers only.
4. Make it a **recurring** payment if desired.
5. Enter an **amount**.

Tip: Available accounts are filtered by Tax ID. Primary Admins see all accounts; Secondary Admins and business users see accounts where “Internal Transfer” permission is granted (but not Primary Admin’s personal accounts).

Scheduled Transfers:

Users can visit the Scheduled Transfers page to manage future-dated transfers and recurring transfers.

1. Click **Scheduled Transfers** in the Transfer menu.
2. Select the desired **Tax ID**.
3. View the transfers.
 - **Edit or cancel** future-dated transfers.
 - **Delete** expired transfers.
